LinkedIn: <https://www.linkedin.com/in/benjamin-smith-0384b31b5/>

Recent college graduate and current MBA student at Campbell University with experience in data management and using HTML and javascript languages. Known by fellow colleagues as a good communicator and friendly collaborator. Other experiences include library, archive, data management, and data security.

Experience

Student Worker- Metadata Analyst

2018-2020

Campbell University - Wiggins Memorial Library

Buies Creek, NC

Supported staff with University archives in the Carrie Rich Engineering School building. These archives contained numerous loose papers and photographs, virtually all of which belonged to the 2nd Campbell University President, Leslie Campbell. Using digital scanning technology, scanned 50+ year-old archival documents and photos and manually saved them to the drive. On behalf of the Pharmacy School, entered all written works made by professors over time. This information was transferred (by me, manually) from a google document to the University database. Extensively utilized the sherpaROMEO database to ensure that we had permission to either enter a direct link or provide a PDF of the article, book, or other work.

- Completed database entries in record time and utilized on-the-clock hours on behalf of the library with optimum efficiency.

Technical Skills

Languages:

- **HTML/CSS** → mastered completing the second assignment for Full Stack development boot camp, learning to connect html pages to another and implement CSS. Implemented these skills .
- **Javascript** → greatly improved upon completing the first boot camp project and sixth homework assignment, learning to populate a <div> using Application Programming Interface (API)'s.

Applications:

- **Project 1:** learned to populate a <div> (as mentioned in 'Javascript section'). This was achieved by populating multiple news articles into a section.
- **Project 2:** did a lot of the html and css work.

Education

Bootcamp Certificate: University of North Carolina, Chapel Hill, NC
